Experience

November 2013–Currently Employed

Registered Nurse • Hospice Triage Nurse • Silverado Hospice

I started out in Case Management and moved into more administrative roles. My next role was Quality Assurance for approximately six (6) months and then was promoted to Director of Patient Care Services. I now am a Triage Nurse handling the case load from Dallas, Fort Worth and Austin, Texas. I love working with patients in all capacities of my many roles. In the triage position, I currently get to educate many patients and I excel in this area

November 2018–Currently Employed

RN Psychiatric staff nurse • Elevations and Viewpoint Hospital

Elevations - I care for over 60 teenage residents at Elevations and administer medication and assess patients on an as needed basis.

Viewpoint Hospital -- I care for 18 teenage patients who are being treated for psychiatric stabilization. I administer medications, help encourage use of DBT and CBT skills. Assist in therapeutic holds and restraints when needed and do the associated paperwork and notify physician and therapist of any events that take place. I also have been helping to educate patients on medications, coping skills, and mental health illness.

**more job experience available upon request*
