WORK EXPERIENCE

Production Worker

Miller Bakery company - Milwaukee, WI -

March 2018 to July 2018

Putting bread dough on the production line for processing before baking in the oven

material handling

Fromm Family Foods - Columbus, WI -

February 2018 to April 2018

production dog food, packaging and stacking them 9 to 12 high on pallet then wrap firmly for shipping

Forklift Operator/Material Handler

Metro surfaces - Oklahoma City, OK -

October 2017 to November 2017

Pulling order for customers from aisle in a timely manner with the use of forklift

Material handling

HOBBY LOBBY DISTRIBUTION - Oklahoma City, OK -

December 2016 to August 2017

SHIPPING AND RECEIVING
HOBBY LOBBY DISTRIBUTION

Placing picked up cases from aisles on the conveyor and loading them proportionally into the truck in form of bricks to fit in the amount needed on the truck for shipping. when done with each truck, you must keep your surroundings clean which is called house keeping. Keep it clean, keep it safe.

Picker/Packer

Micheal arts and crafts - Haslet - Fort Worth, TX -

May 2015 to July 2016

Driving an equipment machine (turger machine) in picking cases from aisles using an RF scanner to scan your label which takes you to the pick location, you scan the location number which tells you how many cases to be picked from that location. after picking you stick the label on each cases picked then you take them to the conveyor for shipping

Picker/Packer

Amazon Fulfillment Center DFW7 - Haslet, TX -

August 2014 to May 2015

scanning each items picked from tote with an RF scan and placing each scanned item in a robotic pod. the pod are of different sizes which give you the ability to calculate fast what size of item goes in the pod before it arrives at your stow station, all items are of different size and each pods ranges from 6inch - 23 inch of which you cannot put a 6inch item in an 18 inch pod so you must be fast and smart to know what pod is coming your way and what sizes of items are in your tote to be picked because the items are mixed up with different sizes. it is a fast pace picking and you got 10 seconds on each items to be placed in the pod and once you done with that pod you send it off for another to arrive quickly to your station

Mixer Operator/ weigh up

Sherwin-Williams - Grand Prairie, TX -

March 2014 to September 2014

Mixing raw materials as stated in the weigh up sheet, making sure after adding all materials, they weighs same amount of pound as stated in the weigh up sheet then pull to the mixer and set time given for mixing, then mix to a specified time
