acquire a position where I can apply my strong communication, problem

solving, customer service, and multitasking skills.

Willing to relocate: Anywhere

Work Experience

Worker

July 2018 to Present

As a bindery worker, duties included sorting papers into their appropriate columns. I also helped run machines in other lines.

Organization was very essential in this field of work.

General Production Worker, Machine Operator, Formulator

Cargill Meat Solutions - Milwaukee, WI

June 2017 to July 2018

As a general production worker, I had the responsibility of packaging the product (meat). This meant organizing various brands and types of meat and putting the correct labels on them. As a machine operator, I had the responsibility of running and turning off machines, along side correcting any malfunctions that arose. Furthermore, as a formulator, I would formulate the meat. This included checking the measurements of lean and fat within the meat. I also had the job of making sure the meat was prepared to be sold at prestigious stores such as Walmart and Meijer. I learned to multitask, and to work at a certain pace.

Arandell, N82W13118 Leon Rd, Menomonee Falls, WI 53051 - Bindery

Service Associate

Walgreens - Milwaukee, WI

July 2015 to August 2017

Started as a cashier. I worked the register by checking out items for customers and also answering any questions they may have. As I prolonged my stay at the facility, I got promoted as shift lead. Duties as shift lead included, scheduling for shifts, over looking inventory, and also releasing the workers for breaks. Through both of these positions, I was able to strengthen my communication skills and learn the importance of leadership.
