Seeking a position to utilize my knowledge, skills and abilities.

Work Experience

Maintenance Technician

Bridgeview, IL
November 2016 to September 2018

- *Operate independently to provide maintenance support to our facility with a focus on safety
- *Responsible for executing preventative maintenance plans, troubleshoot reoccurring equipment problems and find a solution
- *Utilize excellent electrical skills and knowledge in electrical/electronics (Allen Bradley PLCs, A/C and D/C motors and Yaskawa AC drives, control logic, schematics and troubleshooting)
- *Support all aspects of building maintenance and upkeep
- *Work positively with maintenance and operations teams to troubleshoot and resolve manufacturing constraints while engaged in the preventative maintenance processes

Maintenance Technician

BHS Corrugated North America - New Lenox, IL
February 2014 to November 2016

- * Perform or assist in all needed preventive and corrective maintenance work as scheduled by the M2P Supervisor: lubrication, mechanical, and electrical if applicable.
- * Support tasks for the M2P program by maintaining office, warehouse and shop areas and doing administrative support
- * Participate in cross-functional activities and projects as deemed appropriate by BHS Management by supporting other M2P location if needed. Upon agreement assist service department on various service calls and assist in parts shipments from the M2P warehouse

Education

Diploma

Harlan High School - Chicago, IL
2002
