WORK EXPERIENCE

Property Engineer

CBRE @ Park Place Leawood - Leawood, KS -

2014-06 - Present

Job responsibilities include all aspects of maintenance on a 500,000 sq. ft. high-end mixed use commercial property. The position entails the completion of all work orders in a timely manner including electrical, lighting, plumbing, and other general maintenance needs. Maintaining great customer report with all tenants while completing their service needs is an important part of my position.

Commercial Lighting Technician

ECO Lighting - Lenexa, KS -

2013-07 - 2014-06

Job responsibilities include all aspects of maintenance and repairs to indoor and outdoor lighting. Completing all work with running wire underground, troubleshooting issues, retrofitting fixtures, estimating new jobs, and constant interaction with the clients and property maintenance and management. All work completed by the use of ladders, lift truck, and Genie lifts to perform repairs on pole lights, building lights, and signs.

Chief Building Engineer

Courtyard by Marriott - Leawood, KS -

2011-10 - 2013-07

Job responsibilities include all aspects of maintenance of a 150 unit hotel. Completing all work orders in a timely manner, preventative maintenance program on all equipment and rooms, ordering parts, maintaining operation costs within the budget, scheduling outside vendors and contactors for repairs and routine service needs, upkeep of the indoor pool and spa, and many other various duties as needed.

Housing maintenance tech 2

City of Olathe - Olathe, KS -

2009-03 - 2011-10

Housing Authority

Job responsibilities include all aspects of maintenance of 145 city owned public housing units and grounds. Completing all plumbing, electrical, HVAC, painting, drywall repair, landscaping, inspections, unit turn a rounds, work orders and various other duties as needed.

Installer, Southwest Dealer Services

Alarm Tech - Lenexa, KS -

2007-10 - 2009-03

Job responsibilities include installing and servicing high end after market car alarms, remote starters, GPS tracking equipment, scheduling with customers, disassembling new vehicles dash and interior pieces, locating and testing for the correct wires then splicing into wire to install equipment.

Building Engineer

Extended Stay Hotels - Overland Park, KS -

2005-11 - 2007-10

Job responsibilities include all aspects of maintenance of a 150 unit hotel. Completing work orders in a timely matter, preventative maintenance plan on the hotel, boilers, laundry equipment, and PTAC AC Units.

Maintenance tech

Shawnee station apartments - Shawnee, KS -

2004-06 - 2005-11

Job responsibilities include all aspects of maintenance of a 350 unit apartment complex. Completing unit turn arounds, work orders, snow removal, and many other duties as needed.

Senior Installer

Steris Corporation -

2000-04 - 2004-06

Job responsibilities include installation of medical equipment in hospitals and surgical centers across the Midwest. Completing all scheduled installations with clients, meeting with building engineers and doctors to discuss timing and problems that may arise, plumbing, electrical, steam line fitting and working around an operating hospital atmosphere at all times.

EDUCATION

Associate of Applied Science in Electronics Technology

Electronics Institute

1998 - 2000

High School Diploma
