## **Maintenance Mechanic**

Shoreline, WA

mateolingerhaus@gmail.com - (206) 719-2095

Experienced 3rd year Electrical Apprentice and Maintenance Mechanic.

Willing to relocate to: Minneapolis, MN - Saint Paul, MN - Shoreline, WA

### **WORK EXPERIENCE**

#### **Maintenance Mechanic**

Theo Chocolate Company -

May 2017 to October 2018

3400 Phinney Ave North, Seattle WA 98103 206-632-5100

Supervisor: Mary Marten - Salary: \$27/hr

I worked maintaining cam driven and clutch driven machines and conveyor systems servicing controls for AC and DC motor systems from 24v DC to 480V AC 3phase. I maintained direct drive chocolate pumps following GMPs and a quarterly PM schedule. I also serviced low pressure copper boiler and chiller loops; and built and maintained pneumatic air lines and auto valve systems. I installed and repaired control panels and repaired and replaced VFDs and components for 480v 3ph systems from ¼ to 175hp. I serviced and repaired 277v and 120v lighting; and upgraded the existing lighting to occupancy sensing high bay fixtures. I did GTAW/TIG fabrication and manual machining of parts for repair and structural reinforcement. I operated trucks and lift equipment to OSHA 10 specifications. I was laid off due to budget cuts that eliminated my shift.

#### **Apprentice Electrician**

CITC- Electrical Contract Work through the Apprenticeship Program - Bellevue, WA -

April 2015 to April 2018

Luke Koval 206-371-4946

I was dispatched intermittently to several different work sites over the year, but had issues finding stable work and benefits. I took a job at Comcast to learn fiber optics. My union pay rate was \$25/hr.

Wiring of residential and industrial construction projects to NEC.

Wiring and installation of low voltage data center service wiring CAT5-CAT6A.

Installation of lighting and ventilation control systems for residential use.

Exterior service entry including Residential service panels and 3 phase machinery control panels.

Use of construction tools including roto-hammers, saws, and trenching equipment.

Use of multimeters, ammeters, induction sensors, and duty cycle calculations.

## **Technician Level 2**

Comcast Communications CO -

March 2016 to April 2017

906 SE Everett Mall Way, Everett WA 98208 1-877-909-4748

Supervisor: William Wengel - Salary: \$17/hr

I worked as a technician for Comcast for a year, doing technical support and installations of networking equipment and residential networking wiring including Cat6 and Cat6A installs and RG9 and RG11 coaxial lines. I also installed modems and routers for residential customers and trouble shot cable television receivers. I was laid off at the end of my contract.

Providing database and signal testing for field techs.

Providing support for modems and QAM receivers.

Updating firmware on devices and installing fiber connections.

## **MET Team**

The Home Depot - Bellevue, WA -

April 2014 to April 2015

MET Special Projects Travel Team: April 2014 - April 2015

Salary 11.25/hr

325 120th Avenue Northeast, Bellevue, WA 98005 (home store location for team)

homedepot.com MEM Supervisor: Bowen Maygren (425) 615-8237

Bowen\_D\_Maygren@homedepot.com

Using ISES databases to pull projects procedures for execution in stores.

Using store systems to update and track inventory information and mark downs.

Using First Phone hand held PDA devices to track inventory and set bays.

Pulling Plan-O-Grams and setting inventory to store specifications.

Certified machinery operator for hydraulic lifts, reach trucks, order pickers, and fork lifts.

Certified for wiring of basic 120 household displays, track lighting, recessed lighting, and appliances. Bending and installing conduit to code for displays.

Certified new hire coach and staff trainer for my night Merchandising Execution Team.

Certified to operate in store power tools and equipment.

Assembly and movement of steel pallet shelving including galvanized double wall shelving, and cutting dimensional lumber for shelving to fire code.

I left looking for work at a higher pay grade and better hours then was offered for my position at The Home Depot

## **Chief Executive Manager**

Combustible Materials, LLC - Seattle, WA -

August 2008 to November 2012

98104

www.firedancingclass.com Pay: Profit Share

Managed daily operations including promotions, classes, and performance.  
Did customer service and staff support including training instructors.  
Acted as a fire performance and safety instructor.  
Fabricated and designed fire performance equipment for fabrication and testing.  
Shipped, tracked, and received inventory, batch orders, and custom orders.  
Generated advertising web content including product descriptions and newsletters.  
Did basic accounting for pricing and sales inventory including quarterly reports.  
My company folded due to lack of local market viability and rising shipping cost.
