Education

- 1995-1997 Full time student at Marion L. Steele where I studied the basic subjects along with drafting as an elective and was involved with Wrestling as an extracurricular.
- 1997-1999 I was a full-time student at the LCJVS in Oberlin where my main topic of study was automotive. I went on to graduate with my High school Diploma in the spring of 1999.
- 1999-2003 I was a full-time student at the University of Northwestern Ohio where I studied automotive and business after which I received my Associates Degree in Applied Science with a major in high performance automotive.

Experience

- June 2004- August 2015 I worked at Diamond Products doing various tasks such as welding (SMAW, TIG, MIG, Laser), operating tow motor, hot press, band saw, brazing, painting, lead man, and various manual engine lathes.
- January 2014- January 2018 I worked for Sunshine Electric part-time performing work on both residential and commercial jobs.
- May-Aug. 2016 I was employed with Mcqueen sign company where my job duties include measuring, fabricating, and using various power tools to cut parts to size in order to secure signage to the cabinets and beams.
- October 2016- I am employed at Semco Carbon where I read 3-D blueprints, verify alma cam is correct for yield out of each piece of received material, verify traveler is correct and cut dimensions to within spec., check with calipers once cut. Repair/ Replace equipment on machine, operate tow motor, and usage of computer systems.
- October 2018- I was employed with Ray Gudich HVAC as a repair technician where my main duties included diagnosing heating units.

Extracurricular

- 1998-1999 I was associated with a club known as VICA and ran for state

2000-2001 officer.
I wrote a few articles for the local college newspaper.
