Work Summary

As a contractor, I was afforded time off between employers. With 12 + Years of Aircraft Maintenance, Modification and Overhaul, my skill set covers Small and Large Aircraft Fixed & Rotor Wing. Boeing 727-767, DC-10, MD-11, Airbus 310, 320, and 380, Sikorsky UH-60, Black Hawks, Boeing CH-47 Chinooks D & F Model, Bell Huey UH-1 Iroquois

Carrier objective

An inspiring and challenging position in the aircraft maintenance field where my knowledge, education, and experience, can afford me the opportunity for professional and personal growth.

- Phased Unscheduled Line Maintenance, C5 Galaxy Load out Teardown & Buildup
- Serviced, repaired, and overhauled aircraft to ensure airworthiness.
- Read and interpreted manufacturers, and U. S. Army Maintenance manuals, service bulletins, Technical Data, Engineering Data, and other specifications to determine feasibility and method of repairing or replacing malfunctioning or damaged components.
- Performed quality maintenance on aircraft in accordance with (IAW) Original Equipment Manufacturers and Military technical orders as specified.
- Performs miscellaneous duties to service aircraft, including flushing oil systems, cleaning screens, greasing moving parts.
- Performed operationally checks of repaired or modified systems for proper operation.
- Inspected Jet Engines and Components for cracks, corrosion, foreign object damage, burned areas, distortions, security, warping, wear, and missing segments.
- Inspected Jet Engine Turbine Blades to detect cracks, distortion, corrosion, burn-out, security, or breaks.
- Inspected Systems, Sub-Systems, and, Components for proper operation and security.
- Riggered Flight Controls Replaced Damaged Control Tubes, Bell Cranks, Idlers and worn Bearings.
- Troubleshoot malfunctions with Technical Data in aircraft landing gear, flight surfaces and controls, anti-icing, pneudraulic, engines, auxiliary power unit, and ventilation and heating systems.

- Performed 100-hour, progressive, isochronal, phase, periodic, and other hourly or calendar inspections.
- Use of Special tools, Gauges, and Testing Equipment.
- Operation of Fork Lift, Electric Pallet Jack, Overhead Crain and Scamp.
