Start up and shut down of machine, change over product, clean and service machine, hourly checks of product ran on machine. Keep area around machine clean, trouble shoot machines ext.

Kleen Test Products

1611 Sunset Dr. Grafton, Wisconsin 553024

Machine Operator

11/2014 to 04/26/17

Spray down filler with cleaning solution before start up.

After start up I remove the first 30 to 40 bottles and dispose of them.

Proceed to take my weight checks I remove a total of 16 bottles from the 16 filler heads, in order from 1 to 16.

Then I proceed to remove 12 bottles from the 12 capper heads, in order from 1 to 12 to check my torques.

I proceed with this procedure accordingly every 30 minutes to an hour and or every hour to two hours, according to my paper work.

I adjust the speeds of the machine also according to the paper work.

I trouble shoot when my machine goes down, and if I cannot figure out the problem myself I then proceed to call the mechanic who come to fix it.

Am able to do an C&S on machine as well as a change over.
