Profile

Over 20 years in the construction industry as a project manager / estimator with high regard too attention to detail and and the highest quality of work product with cost effectiveness with company and customer interests in mind. My strength is in family values with work ethics as a reminder of this industry standard and meaning to building.

Job Objective Provide an excellent construction service to the company and protect company values. Deliver high quality product with extensive attention to detail and prompt to handle problems and receive quick and efficient answers to problems with time frame of completion of work and product. Constantly learning new ways of product placement and evolving best practice standards to daily work issues and creating efficient, safe and friendly work environment. Communicate with fellow workers and ask for help if problems arise that will compromise time lines or product quality Respect ideas and implementation of outside answers to create a better product.
